

New Year Daily Profit Plan

Event Time: January 1, 2025 – March 31, 2025

Event Details:

1. Users of CWG Markets will automatically participate in this event and earn daily profit upon meeting the following two conditions:
 - a) The total balance under their individual CID is no less than \$200.
 - b) The account is active (i.e., the CID completes at least one MT4/MT5 trading order during the month).
2. Account profit is calculated daily based on the balance and accumulates over time. It is distributed to the CID account wallet within the first 3 days of each calendar month. The profit rate increases progressively according to the CID balance, as detailed below:

CID Total Balance (\$)	Annualized Profit Rate	Reference Profit
$\$200 \leq \text{Balance} < \$1,000$	1.8%	\$500 Monthly Profit \$0.75; 3-Month Profit \$2.25
$\$1,000 \leq \text{Balance} < \$10,000$	3%	\$5,000 Monthly Profit \$12.5; 3-Month Profit \$37.5
$\$10,000 \leq \text{Balance} < \$50,000$	4.5%	\$25,000 Monthly Profit \$93.75; 3-Month Profit \$281.25
$\$50,000 \leq \text{Balance}$	5.5%	\$100,000 Monthly Profit \$458.33; 3-Month Profit \$1,375

Example: Mr. A's account CID80**06 has a total balance of \$10,000. The daily cumulative profit is: $\$10,000 \times (4.5\% \div 365) \approx \1.23 . On the second day, after earning \$2,500 from trading, the total balance becomes \$12,500. The next day's cumulative profit is: $\$12,500 \times (4.5\% \div 365) \approx \1.54 .

3. Clients can withdraw funds at any time. The withdrawn portion of the balance will no longer generate profit, while the remaining balance will continue to accrue daily profit. If the total balance falls below \$200 due to withdrawal or transfer, the account will cease to generate profit.
4. This event can be participated in simultaneously with all other CWG events.
5. During the event, if participants engage in any prohibited behavior, such as trading with accounts using the same IP address simultaneously, linking multiple accounts

- (including but not limited to CWG internal accounts or accounts with other brokers) for arbitrage, malicious hedging, high-frequency trading arbitrage, quote delay arbitrage, or if 70% or more of trading volume is concentrated on specific products or maintains a fixed trading direction, CWG reserves the right to disqualify the participant, revoke eligibility for this event, reclaim improper profits, and terminate the business relationship.

Over the three days, her daily additional profit will be: Account Balance * 1% ÷ 365.
