Note:

1. Implicit Spread Markup applies to all Forex currency pairs, cryptocurrencies, gold, and silver products. It is not applicable to crude oil, indices, futures, or stock-related products.
2. All added Implicit Spread Markups and combinations are eligible for daily settlement. If withdrawal is requested during the week, processing will occur collectively on Fridays.
3. Swap-free accounts do not support Implicit Spread Markup. Accounts opened via such combinations will default to a no-commission, no-markup type.
